# INSTALLATION

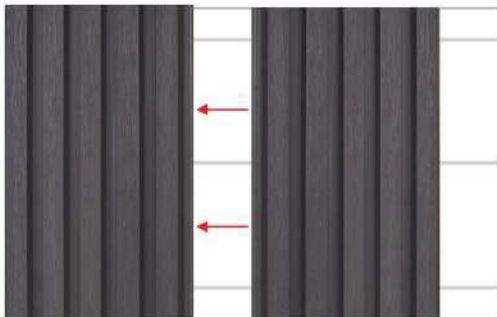

**ALLCOR**<sup>®</sup>  
WPC EXTERIOR CLADDING

*Opulence that will mesmerize.*

## STEP-1

Install ALLCOR Panel to the sub-frame with screws. The screws should be installed on the tongue of the panels.

## STEP-2

Place another panel adjacent to the 1st one with the concealing tongue covering the screws.

## STEP-3

Repeat the process till all the panels are installed & the facade is complete.
